What's Inside This Report

01	Photo Update — The Cottage Section	Our Story
02	Navigation Auto-Hide on Scroll	All Pages
03	Testimonials Redesign & New Reviews	Home Page
04	Text Alignment Consistency	All Pages
05	Phone Number Update (Reservations)	Contact
06	House Rules — Full Content Added	Contact
07	Title Capitalisation Across All Headings	All Pages
08	Mobile vs. Desktop Parity Verification	QA Check

CHANGES 01 – 03

Home Page & Our Story Updates

The following updates were made to the home page and the Our Story page based on your feedback, improving the visual feel, guest review display, and hero photography.

01 — Photo Update: The Cottage Section

✓ DONE

Our Story Page · Hero Image

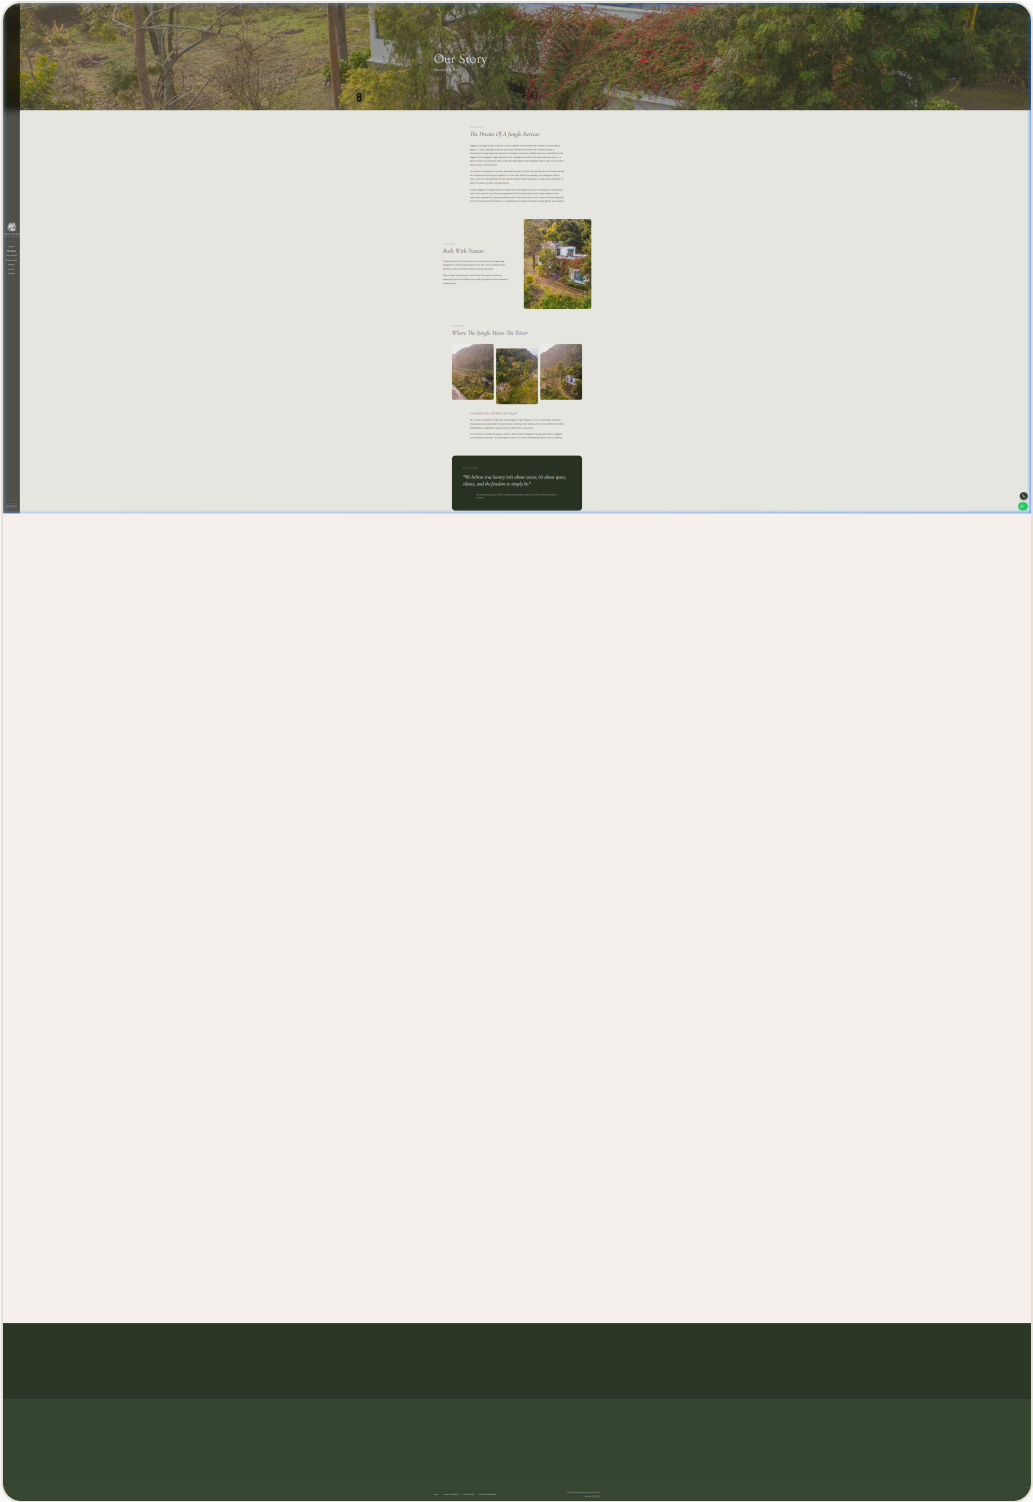

YOUR FEEDBACK

"Replace the photo in The Cottage section on Our Story page with the new drone photo (DJI_0573.jpg) — on both desktop and mobile."

WHAT WE DID

- ✓ Replaced the existing cottage photo with the new DJI drone photograph
- ✓ Verified it displays correctly at full width on desktop screens
- ✓ Verified it displays correctly on mobile devices with proper cropping

LIVE EVIDENCE — OUR STORY PAGE

02 — Navigation Auto-Hides on Scroll

Our Story Page · Header Behaviour

✓ DONE

YOUR FEEDBACK

"While scrolling down the navigation menu should hide like in other pages."

WHAT WE DID

- ✓ Added scroll-aware behaviour to the navigation bar on the Our Story page
- ✓ The nav now smoothly slides up out of view when you scroll down
- ✓ It reappears automatically when you scroll back up — consistent with all other pages

03 — Guest Testimonials Redesigned

Home Page · Testimonials Section

✓ DONE

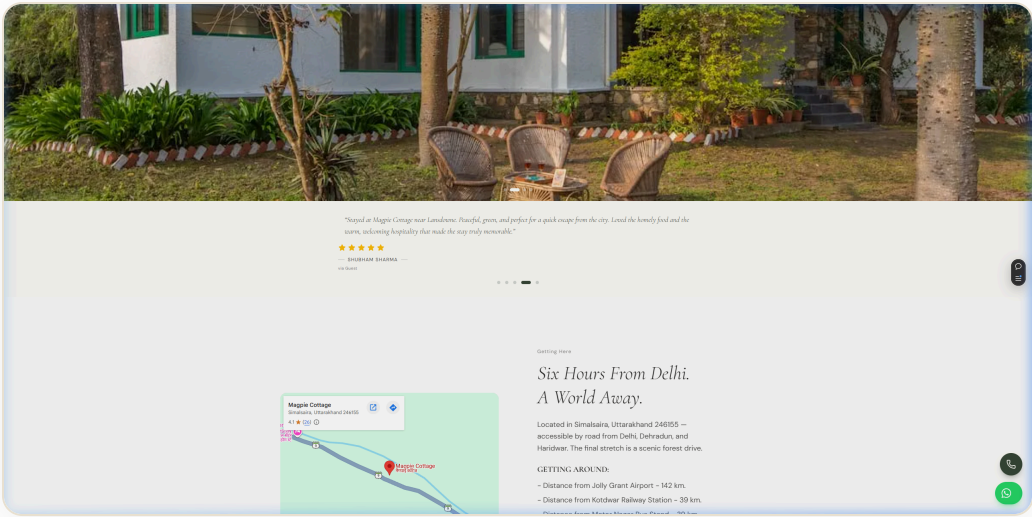

YOUR FEEDBACK

"The inverted commas should be at start & end of quote. The gap above and below is too much — reduce it. Take latest guest reviews — some are very good. The testimonial section should not get squeezed horizontally."

WHAT WE DID

- ✓ Added opening and closing quotation marks (" ") to every testimonial quote
- ✓ Reduced the top and bottom spacing around the section to eliminate unnecessary white space
- ✓ Replaced old reviews with fresh, highly-rated guest reviews including the glowing "most beautiful places to stay" review you shared
- ✓ Fixed horizontal layout so testimonial cards no longer squeeze — they display at full natural width

 LIVE EVIDENCE — GUEST TESTIMONIALS

CHANGES 04 – 07

Contact Page & Consistency Updates

Several important updates were made to the Contact page — new phone number, full House Rules content, and a site-wide consistency pass on text alignment and capitalisation.

04 — Reservations Phone Number Updated

✓ DONE

Contact Page · Reservations Section

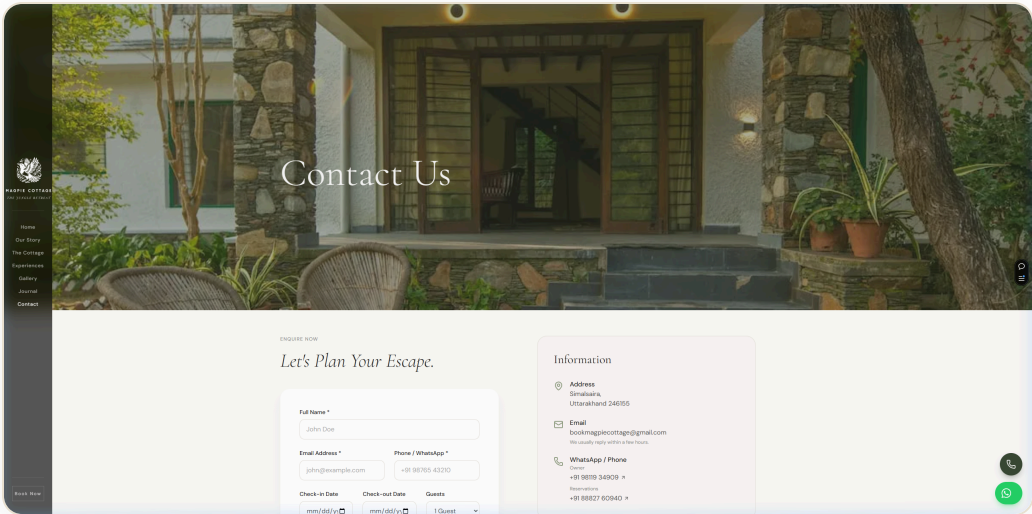

YOUR FEEDBACK

"Reservations: +91 8882760940 (Please change the current mobile number to this one). Owner: The mobile number remains as is ie: +919811934909"

WHAT WE DID

- ✓ Updated the Reservations phone number to **+91 8882760940**
- ✓ Owner number (+919811934909) was kept exactly as-is
- ✓ Both numbers are now displayed clearly in the contact section

LIVE EVIDENCE — CONTACT PAGE (TOP)

05 — House Rules — Full Content Added

✓ DONE

Contact Page · House Rules Section

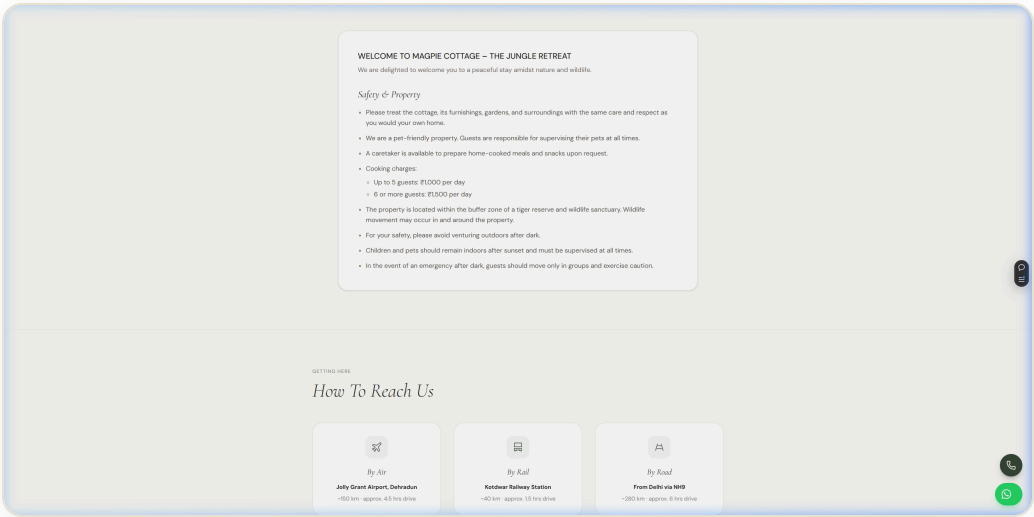

YOUR FEEDBACK

"Add the full House Rules content including: 'During Your Stay', 'Safety & Property', 'Welcome to Magpie Cottage – The Jungle Retreat' and all bullet points covering pet policy, caretaker services, noise guidelines, fire safety, and checkout procedures."

WHAT WE DID

- ✓ Added the welcome message "Welcome To Magpie Cottage – The Jungle Retreat"
- ✓ Added "During Your Stay" section with all bullet points (cottage care, pets, caretaker meals, etc.)
- ✓ Added "Safety & Property" section covering fire safety, bonfires, and responsible waste
- ✓ Added check-out instructions and respectful departure guidance
- ✓ All text formatted cleanly with proper spacing and readability

LIVE EVIDENCE — HOUSE RULES SECTION

o6 — Text Alignment — Site-Wide Consistency

[✓ DONE](#)

All Pages · Headings & Body Text

YOUR FEEDBACK

"There needs to be consistency with all text across the site. If the headings are left aligned then they should ALL be left aligned. Text cannot be centre aligned somewhere yet left aligned somewhere else."

WHAT WE DID

- ✓ Conducted a full audit of every heading and paragraph across all pages
- ✓ Standardised all section headings to be left-aligned consistently
- ✓ Fixed Our Story page (was mix of centred and left) — now fully left-aligned
- ✓ Fixed Contact page sections — "How To Reach Us", "House Rules" all left-aligned
- ✓ Fixed Experiences page — all activity headings now left-aligned

07 — Title Case Capitalisation Across All Headings

✓ DONE

All Pages · Every Heading & Subheading

YOUR FEEDBACK

"For every heading & subheading the first alphabet of each word to be in caps."

WHAT WE DID

- ✓ Applied Title Case formatting to every heading across the entire site
- ✓ "Meet malini the founder" → "Meet Malini The Founder"
- ✓ "come stay with us" → "Come Stay With Us"
- ✓ "house rules" → "House Rules"
- ✓ "how to reach us" → "How To Reach Us"
- ✓ "magpie at night" → "Magpie At Night"
- ✓ All pages: Home, Our Story, Contact, Experiences fully updated

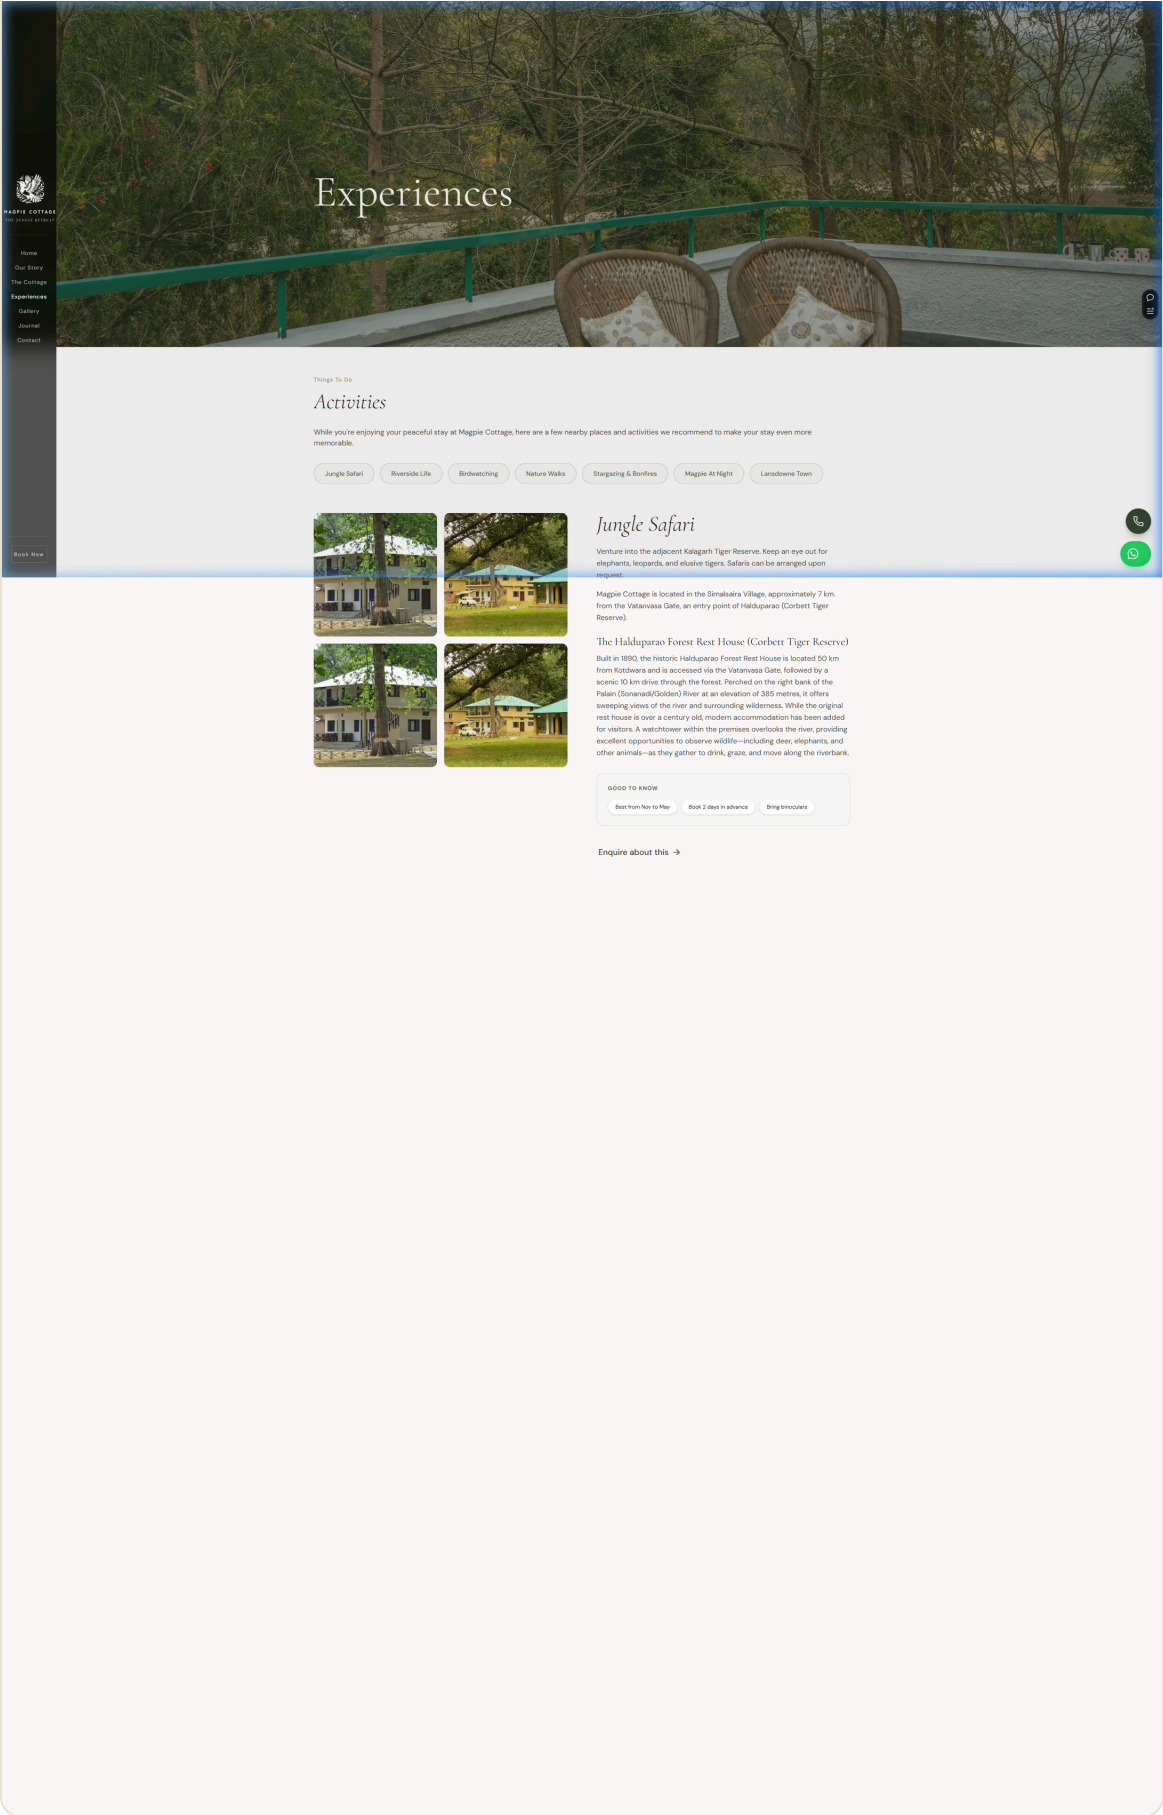

CHANGE 07 CONTINUED

Experiences Page

The Experiences page received the same alignment and capitalisation treatment, ensuring it looks and feels identical in style to every other page on the site.
