

Magpie Cottage

THE JUNGLE RETREAT

Website Feedback — Update Report

10th July 2026

Prepared by [apr.studios](#)

Overview

Summary of all changes made based on your feedback

Thank you for your detailed feedback on the Magpie Cottage website. We've gone through each point carefully and made the necessary updates. This report summarises what has been completed and what still needs your input before we can proceed.

20	18	2
Total Items Reviewed	Completed	Awaiting Your Input

Previously Completed (Round 1)

- ✓

Navigation Order Updated

Menu now reads: Home → The Cottage → Experiences → Our Story → Gallery → Journal → Contact — consistent across both the top menu and the footer.
- ✓

Homepage Text Added

"Constructed with local stone and wood..." text is now visible under the Cottage section on the homepage.
- ✓

Tagline Updated

"Magpie Cottage – The Jungle Lodge" with the Sal Trees description now appears on the homepage and in the footer.
- ✓

Grandmother's Photo Repositioned

Moved to "The Lineage" section on the Our Story page for better context.
- ✓

Our Story Photos Added

Tiger skin photo and older gentleman portrait now included on the Our Story page.
- ✓

Footer Logo & Credits

Logo increased to proper size. Credits now read "Made by apr.studios" (no heart emoji). Broken "The Legacy" link removed.

Latest Changes (Round 2)

Completed based on your most recent feedback

Photos & Galleries

- ✓ **Duplicate Photos Removed**
Several wildlife photos were appearing in multiple sections (Safari, Nature Walks). Each section now uses its own unique set of photos — no repeats anywhere on the page.
- ✓ **Jungle Safari — 2 New Photos Added**
The historic Halduparao Forest Rest House building and the original FRH signboard are now featured in the Safari gallery.
- ✓ **Nature Walks — Animal Photos Added**
This section previously used a single repeated elephant photo. It now has its own gallery with 4 dedicated wildlife images: elephants, tiger, and deer spotted on nature trails.
- ✓ **Lansdowne Town — Landmark Photos Added**
Previously had no gallery. Now features 4 photos of local landmarks: St. John's Church, Darwan Singh Museum, Garhwal War Memorial, and St. Mary's Church.
- ✓ **Riverside — New Photo Added**
A new riverside scene photo has been added to the gallery.
- ✓ **Bonfire & Night Photos — iPhone Format Fixed**
The original photos were in iPhone's HEIC format which doesn't display in web browsers. All have been converted to standard JPG format and are now displaying correctly.
- ✓ **Birdwatching — All 14 Photos Included**
The complete birdwatching collection (14 photos) is now part of the gallery.

Design & Layout

- ✓ **Colour Scheme Made Consistent**
The navigation bar and footer now use the same olive green colour throughout the site — no more mismatched tones between pages.
- ✓ **Footer Green Band Made Thinner**

The green footer area at the bottom of every page has been slimmed down as requested.

Browser Tab Icon (Favicon) Set

The Magpie Cottage logo now appears as the small icon in the browser tab when visitors open the website.

Text & Content

-  **Guest Testimonial — Divya Jindal**

The quote has been rephrased for clarity and the quotation marks have been fixed. It now reads: *"A wonderful house — very comfortable, neat, and clean. The caretaker and the cook both took exceptional care of us throughout our stay."*
-  **Contact Details — Text Wrapping Fixed**

On The Cottage page, the "Reservations: Siddharth Ahuja" text was splitting across lines on mobile. This has been restructured so names and phone numbers stay together on the same line.
-  **Experiences Section Positioning**

On the homepage, the Experiences section now appears after the Cottage section in the correct order: Cottage → Rooms → Experiences → Our Story.

Awaiting Your Input

These items need your decision before we can proceed

-  **Logo Size**

You mentioned the logo appears "way too large" and you'd like only the bird icon at a smaller size. Currently, the logo shows both the bird illustration and the "Magpie Cottage" text below it. Would you like us to:

 - Option A:** Keep the full logo but make it smaller
 - Option B:** Use only the bird illustration (without the text) at a very small size
 - Option C:** Something else — please describe

YOUR INPUT NEEDED

-  **Homepage "Built With Nature" Photo**

You flagged a specific photo on the homepage as being a screenshot. The current image is an aerial drone shot of the property. Could you let us know which photo you'd like replaced, and if you have a preferred replacement image?

YOUR INPUT NEEDED

Next step: Once you share your preferences on the two items above, we'll implement them right away. No other changes are outstanding — everything else from your feedback has been completed.

Quality Assurance

The website has been tested across devices to ensure everything works correctly

6

Pages Tested

0

Broken Images

0

Layout Issues

Desktop Testing

All Pages Verified

Homepage, The Cottage, Experiences, Our Story, Gallery, and Contact pages have all been visually checked on desktop screens. All images load correctly, navigation works, and the colour scheme is consistent.

Mobile Testing (iPhone)

Mobile Layout Verified

All pages have been tested at iPhone dimensions (390×844 pixels). No content is cut off, no text overflows the screen, and all buttons are easy to tap.

Contact Details Display Correctly

The reservations contact information on The Cottage page displays neatly on mobile without awkward line breaks.

Photo Galleries Work on Mobile

All new photo galleries (Nature Walks, Lansdowne, Safari) display correctly and can be scrolled through on mobile devices.

Thank you for your continued feedback.

Please review the website at your convenience and let us know your thoughts on the pending items.
